

Aerobic Matting

Aerobic matting by Amarco Products offers cost effective choices for maximum performance with features such as, traction, anti-fatigue, comfort and safety, engineered into every aerobic tiles. While our tiles provide the ease of maintenance and installation of a modular tile and offer excellent aerobic features, they are often used as a substitute for expensive aerobic hardwood floor installations.

Aerobic-Plus	Flex Court	Aero-Tile
 • 9/16" Thick Tiles • Excellent traction dry or wet • Reduces the risk of exercise injuries • Knobbed underside good air flow • 12" x 12" tile pattern raised nubs • Beveled border & corner available	 • Achieve attractive wood-like look at a fraction of the cost • Low maintenance and easy to clean, Flex-Court never needs refinishing • Modular design means tiles are easily installed and maintained • Cushioned surface reduces fatigue	 • Lightweight • Fully portable Interlocking • Quick set-up & disassembly • Design floor into any shape or size • Anti-slip, anti fatigue • Highly resilient, shock absorbent

Aerobic-Plus

Aerobic-Plus by Amarco is a heavy-duty 100% virgin rubber interlocking tile that provides exceptional traction in both wet and dry conditions. The knob backing stimulates air flow providing good aeration under tiles. Aerobic-Plus has a raised nub surface which provides increased traction. Aerobic-Plus reduces the risk of injury associated with the sport.

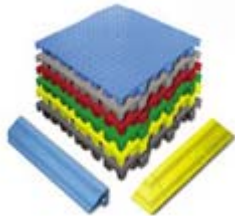

Flex-Court

Get the wood look for a fraction of the cost. Flex-Court is durable, snap-together modular flooring for a wide variety of aerobic activities. The vinyl tile never needs refinishing, is low maintenance & easy to clean with an optional rubber under-laymen, Provides a cushioned surface, absorbs shock, reduce stress, fight fatigue.

Aero-Tile

The "AERO TILE" Aero Tile is Lightweight, easily transported and installed tile with the durability of heavy duty rubber flooring. Textured surface pattern provides maximum traction. Excellent anti-fatigue characteristics provide comfort and safety. These tough polymer mats assemble and disassemble quickly and easily, yet can remain as semi-permanent flooring for years of continual use. Excellent for Martial arts tournament flooring, Trade shows, Yoga studios and day-care centers.

Spring-Tile

- Over 250 raised discs along with 3/4" thick
- Resilient, SPRING BACK air support
- SPRING BACK has similar performance characteristics as a floating hardwood floor
- Most cost effective choice for aerobic or anti-fatigue resilient floor
- Easy to install

Rubber-Lite

- Materials: 100% PVC
- Size: 24" x 24" Square
- Thickness: 3/4"
- Total Weight: 4.5 lbs /tile
- Colors: 2 standard colors

Soft-Tile

- Materials: 100% PVC
- Size: 24" x 24" Square
- Thickness: 5/8"
- Total Weight: 1.28 lbs /tile
- Colors: 14 standard colors

Spring-Tile

Spring-Tile is a great, cost effective choice for an aerobic or anti-fatigue resilient floor. Each 12" x 12" x 3/4" tile has over 250 raised discs for traction and our "Spring back" air support. Spring tile has similar performance characteristics as a floating aerobic hardwood floor.

Rubber-Lite
