

Newstripe's Field & Playground Stencils & Paint

PolyTough™ stencils will keep your facility looking sharp! Mascot and team emblems up to 50' sizes, football numbers, hash marks, playground games and custom graphics for fields, press boxes, walkways and more.

Quality: PolyTough stencils are the ultimate in industrial grade stencils. Cut from a 1/8" high-grade plastic, they are the most durable stencils available.

Easy to clean: Dried paint simply flakes off and PolyTough stencils can be pressure washed or even cleaned with solvents.

Crisp, accurate markings: All Newstripe stencils are precision cut to reproduce logos, mascots and fonts precisely.

Always lay flat: Their heavy weight means sharper images and lettering on almost any surface.

Lifetime Warranty: Newstripe stencils are designed for the heaviest use, misuse and abuse. With minimum care, they will last for years and are backed by our lifetime warranty.

Field Marking Paint: Newstripe's premium paints produce bright, high quality lines. Our white concentrate saves big on shipping costs and eliminates measuring. Create vivid mascots and team logos with our wide range of colors. Newstripe's Aerosol paints feature nonclogging tips and are available in a wide range of colors. Newstripe's paint is environmentally safe and easily cleans up with soap and water.

Other Marking Needs?

Newstripe, Inc. offers a complete line of field painting machines, infield groomers, drags, and stencils.

Newstripe's Field Layout Systems

SafeMark™ Permanent Locators

Permanently layout fields once and never measure again. Unique markers won't rust and will not lift. Markers are installed flush to turf to prevent twisted ankles and tripping. Each set includes installation auger, locators, 600' cord and stringing spikes. Different sets allow you to layout baseball, soccer, football and more.

ProLine™ Field Layout System

Newstripe's ProLine Field layout system is the simplest and easy way to layout a field and to eliminate repeated measuring. The recessed button allows you to quickly string a field for painting. Each kit includes locators, starter tool and 600' cord. Different sets allow you to layout baseball, soccer, football and more.
