

SWIMWALL SYSTEM™ POOL DIVIDERS

Separation Solutions to Optimize Pool Space

S.R. Smith SwimWall System™ Pool Dividers can be customized to segment a swimming pool into multiple smaller areas in order to maximize pool space for a variety of aquatic activities

SERIOUS EQUIPMENT • SERIOUS FUN • ACCESS FOR ALL

CREATE MORE POOL TIME

Key Features

- Resin and color infused fiberglass construction for exceptional durability and strength
- New construction and retrofit options
- Marine grade 316L stainless steel fittings
- Width, height and thickness are customized to requirements

HOW SWIMWALL POOL DIVIDERS WORK

From the pool deck, air is pumped into the SwimWall which causes it to move into a vertical position within seconds. Lane lines can remain in place during the process. A large stainless steel pin secures the SwimWall to a locking mechanism on the pool wall. To lower the wall the pin is retracted, the SwimWall is gently pushed to one side, and air is replaced with water. The SwimWall moves to the pool floor where it remains when not in use.

IN SECONDS

FAQs

Q. Does my swimming pool need to be drained to install SwimWall Pool Dividers?

A. *SwimWall System™ Pool Dividers can be installed, without draining the pool, in about 3 days.*

Q. What type of pool surface can accept a SwimWall?

A. *SwimWalls can be installed in concrete, tiled, vinyl-lined, and fiberglass-coated steel pools.*

Q. Are SwimWall Pool Dividers typically used to separate a 50-meter pool at the half way point?

A. *Yes, they are usually installed at the halfway point in a long course pool.*

Q. How many lanes can be covered with one SwimWall?

A. *Typically a SwimWall covers from 2 to 5 lanes.*

Q. Are SwimWall Pool Dividers strong enough to withstand tumble turns?

A. *Yes, SwimWall Pool Dividers stay rigid against the force of tumble turns with very little deflection.*

Pool Programming Flexibility

S.R.Smith SwimWall™ Pool Dividers provide unprecedented pool flexibility, allowing more swimming pool patrons in the pool at the same time. Wall sections can span the entire width of a pool, effectively doubling the number of swim lanes, or can section off virtually any area of the pool to create space for a wide variety of aquatic activity.

Typical Morning Pool Schedule with the help of SwimWall System™ Pool Dividers

From design to manufacture, delivery and installation, S.R.Smith provides complete turnkey pool separation solutions. Contact us to find out how S.R.Smith SwimWall System™ Pool Dividers can help maximize the use of your swimming pool.
