

THERMAL POOL COVER SYSTEMS

SERIOUS EQUIPMENT • SERIOUS FUN • ACCESS FOR ALL

thermal pool cover **systems**

Commercial aquatic facilities are constantly managing programming demands, maintenance needs, and budgets. The costs associated with water evaporation, heat loss, and chemical consumption rates can have significant impact on the bottom line. S.R.Smith's Thermal Pool Cover Systems provide a way to mitigate these issues by having the pool covered edge to edge with custom built insulated covers. To limit the burden on staff, deploying and reeling in the covers is simple and easy when using the automatic re-winders, deployers and storage reels.

SUPERIOR PRODUCTS & WARRANTY

With features like quadra seam stitching, load dispersing PVC plates and weighted edges, the pool covers are built to withstand harsh pool environments. Combine that with rugged stainless steel storage reels and automatic rewinders, these S.R.Smith Thermal Cover Systems make deploying and rewinding the covers easy for any facility and its staff.

CUSTOM BUILT FOR EVERY POOL & SPA

No matter the size or shape of a pool or spa, we will create a highly customized Pool Cover System with a multitude of configurations consisting of different covers, reels, and rewinders.

MEASURABLE SAVINGS

Thermal Pool Covers immediately start saving facilities money. In most scenarios, a facility can recoup their investment in a pool cover system in 12-16 months. Routine use of a Thermal Pool Cover insulates the pool during off hours and can drastically reduce a facilities costs*, typically:

- 70% reduction in heating costs
- 60% reduction in chemical consumption
- 50% reduction in water loss
- Reduction in cleaning needs

POOL COVER FEATURES:

- UV-Resistant Ultrasorb LDPE Coating
- Double Lockstitch Seams with UV-Resistant Polyester Thread
- Load Dispersing PVC Plates
- Brass or Stainless-Steel Grommets
- UHMW-PE Dowel with Solid-Braided Polyester Cord
- Double Layer Fabric Edge Encapsulation Throughout
- Weighted, Anchored Edge with Extruded UVR Flex Vinyl Weights

ENERGYSAVER STANDARD

As the benchmark product in the pool cover industry, the EnergySaver Standard is an outstanding value. It has been perfected through ongoing improvements in both materials and manufacturing methods.

5 YEAR PRO-RATED WARRANTY

ENERGYSAVER XER

The EnergySaver XER pool cover possesses all of the EnergySaver Standard but adds stronger seam configurations, extra reinforced ends, and the best warranty on the market.

7 YEAR PRO-RATED WARRANTY

STORAGE & RE-WINDING DEVICES

MANUAL STORAGE REELS

Using 100% non-corrosive heavy-walled stainless-steel, these manual storage reels are available in numerous widths and 1, 2, or 3 tube configurations

UNA AUTOMATIC RE-WINDER

Integrated onto a single-tube storage reel, the UNA is a rechargeable, battery-powered automated re-winder with both on-device or remote-control operation

EOS PORTABLE AUTOMATIC RE-WINDER

Portable and adjustable, the EOS automatic re-winder with rechargeable battery power allows you to attach to each tube in 1, 2, or 3 tube reel configurations.

POOL COVER DEPLOYER

Use the Deployer with the EOS Re-winder to easily redeploy the covers back over the pool rather than pulling them out by hand.

REEL COVER PROTECTORS

Protect your pool covers from the elements while being store on reels with our reel cover protectors.
